Art Unit: 1761

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-36 and 47-67, drawn to an apparatus and method for attaching a tube to a bag, classified in class 156, subclass 556.

Group II. Claims 37-46, drawn to a flexible bag , classified in class 383, subclass 103.

The inventions are independent or distinct, each from the other because the flexible bag of Group II can be made by methods other than that recited in Group I. For example, the bag could be made without the use of a sterile processing chamber, a tube inserter, an aseptic form, fill, seal operation, etc. The bag could be formed by hand wherein the tube and bag walls could be sprayed with an antiseptic, or heated or microwaved, to make the surfaces germ-free.

Because these inventions are independent or distinct for the reasons given above, and have acquired a separate status in the art, requiring separate searches, as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 1761

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven L. Weinstein whose telephone number is 571-272-1410. The examiner can normally be reached on Monday-Friday 7:00 A.M.-2:30 P.M..
